PROFILE

I am a highly motivated student dedicated to developing my skills and beginning my professional journey. I love to learn and I'm confident in my ability to face any challenge presented to me.

PROJECTS

BLACKJACK

A simple blackjack game that includes all features of blackjack except splitting. All DOM manipulation is handled through vanilla JavaScript, and pages are made with HTML and CSS.

RESTAURANTFINDER

Web app that utilizes the Zomato API to give users nearby restaurant locations of a given city. API calls authenticated through an API key and are retrieved using fetch.
